

Tourism Monitor Switzerland 2017.

Tourism Monitor Switzerland 2017 (TMS 2017) is the largest national guest survey. Conducted by Switzerland Tourism for the Swiss tourism industry, it focuses on overnight tourism in the leisure sector. The survey covers a wide range of topics, including sources of information, tourist needs and activities, touristic strengths and tourist satisfaction.

21,535 leisure tourists from 130 countries participated in the 20-minute online interview in the touristic year 2017. They were recruited representatively while on holiday in 180 Swiss destinations.

Improvements compared to the TMS 2013:

- extended sample size: +54.7%
- new topics: social media, main travel reason, segmentation

Members of ST have access to the¹

1. TMS PDF reports²: www.stnet.ch
2. TMS online database: <http://tms.myswitzerland.com>

The TMS online tool generates 40-page reports and allows you to choose and combine 200 criteria in an unlimited number of ways.

Content.

The 16-page questionnaire covers the following topics:

Source market and destination	Type of travel	Tourist related elements
Market of origin: source market	Season	Sources of information
Market of origin: market groups	Accommodation	Daily expenditure
Tourism zone	Hotel classification	Tourists' needs
Tourism region	Length of stay in destination	Activities
Image of destination	Length of stay in Switzerland	Main travel reason
Strengths of destination	Touring	ST segments self-selection
Weaknesses of destination	Means of transportation in CH	Frequency visiting destination
Satisfaction with destination	Travel package	Frequency visiting Switzerland
Loyalty with destination	Group size	Socio-demographics
		Travelling with children
