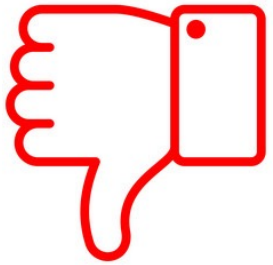
Market challenges 2022 – 2023.



Switzerland.

- Exchange rate 3,8 BRL/CHF (2019) → 5.5 (2022).
- Turbulent times: Political and economical crisis, elections (GDP↘).
- Slow GDP growth forecast for 2022 at 0.28%, 1.7% for 2023. (according to Central Bank)

Opportunities with ST Brazil in 2023.

Switzerland.

- Switzerland has been making a **big buzz in 2021** thanks to a strong social media positioning (the HNWIs want to do what others are doing).
- Brazilians very **pragmatic** and used to crisis, especially **luxury travelers.**
- Little impact from Russia / Ukraine crisis.
- **Recovery** was the quickest among ST long-haul markets (2nd half of 2021and 1st half of 2022 – see next slides).
- Positive **economic growth** forecast by all major financial institutions.
- **Experienced ST team,** strong market expertise, knows what works and what doesn't work.
- After the pandemic, Switzerland is now a **destination** in Europe, not a stopover anymore.

Our nature will wait for you.

Nesta segunda-feira, 16 de março de 2020, o Conselho Federal da Suíça anunciou "situação extraordinária" para contenção da propagação do coronavírus.

Os fatos mais importantes:

- Proibição de todos os eventos públicos e privados
- Fechamento de bares, restaurantes, esportes e espaços culturais
- O governo também decidiu introduzir controles de fronteira com nossos países vizinhos
- Todas as escolas estão fechadas
- Apenas as empresas que fornecem bens essenciais à população - como supermercados, padarias e farmácias - devem permanecer abertas
- O transporte público ainda está em operação, mas os serviços ferroviários e rodoviários serão bastante reduzidos como resultado da situação atual
