Due to the current situation, Swiss cities need more attention than ever. Therefore, in summer 2022, «Run the Swiss Cities» will generate a lot of attention for Swiss cities.
We use the existing concept of ON Shoes "Our insiders guide to running the Swiss cities" and build on it. We are producing a story for 3 other cities (Basel, Geneva, Lugano / Zurich is existing) according to the established concept.

..our highlight: RF appears in the Basel Clip.

Based on our long-term #Swisstainable strategy, we want to inspire guests nationally and internationally to travel sustainably. After the first #Swisstainable push in 2021 where the Manifesto was distributed in Switzerland (summer and winter) and in the markets (winter), and where first learnings around the Experience Shop (summer and winter) have been gathered in Switzerland, we want to take a next step.

With a content marketing approach, we aim to tell real and diverse perspectives for a high-quality and deep engagement with the topic of #Swisstainable. More specifically, six videos (MSJs), one cut-together and one content hub build the core of the 2022 campaign.

Extending the MSJ Video campaign from May/June 2022 into the winter season (Focus: Hanno and Mauro).
The goal was to generate video views on the long assets.

Based on the learnings from the first campaign, that videos didn't work on the landingpage, we focused on awareness/video views directly at the platform.

We ran a YouTube campaign and tested Samsung Connected TV as a new video channel platform.

We didn't focus on generating website traffic / sessions.

The main goal were video views.

<i>Date from - to</i> 01/01/2022 – 03/31/2022	<i>Marketing Tool</i> Display & Programmatic Paid	<i>Contacts</i> 53223226
<i>Activity</i> Overall, we see a great performance in terms of traffic generation with an average CpS of CHF 0.81 (in CH: CHF 0.73). Compared to winter offers campaign in 20/21 the CVR of 3.36% (sessions to click-outs) was lower (20/21: CVR 7.85%), while buying KPIs such as a CpS of CHF 0.81 show better results (20/21: CpS CHF 1.91). This can be due to circumstantial influences (different Covid-19 regulations). Last year, all ads were running in CH only, where bookings were more realistic (and done on short-notice), this year's campaign ran in CH, DE and BeNeLux which has led to lower CpS (less competition) but lower CVR as the willingness to book (on short-notice) is lower abroad.
